## SUBJECT INDEX

- Appell function, 79  
 Appell function, asymptotic 81  
 asymptotic solution 308  
 autoregressive model 195  
 autocovariance 180  
 basic hypergeometric function 157, 271  
 basic wavelet 57  
 Bernoulli polynomial, 7  
 Bernoulli polynomial, generalized 7  
 Bernoulli numbers 7  
 Bessel function 38  
 beta density 22,23,37  
 beta function 21  
 birth and death processes 109-136  
 BLUE 145  
 Caputo derivative 100  
 Cauchy-type problem 94  
 characteristic function 18  
 characteristic polynomial 132  
 Chebyshev polynomial 129  
 combinations 2  
 continued fraction 119,164  
 convolution 258,268  
 correlation 27  
 covariance 26  
 density, function 12  
 density, beta 21  
 density, Bose-Einstein 40  
 density, conditional 15  
 density, Fermi-Dirac 49  
 density, gamma 20  
 density, joint 15

- density, marginal 14
- density, Maxwell-Boltzmann 40
- density, uniform 13
- diffusion equation 330
- dilates 55
- dilation 60
- duplication formula 6
- DSRSS 148
- elliptic functions 172
- entropy 344
- ergodicity 181
- Euler's constant 4
- factorial 2
- financial modelling 217
- fractal pattern 281
- fractional, integration 87
- fractional, differentiation 89
- fractional, differential equation 94
- fractional, diffusion 102,340
- Fourier series 54
- Fourier transform 18
- functions of matrix argument 249
- gamma function 3
- gamma, incomplete 37
- Gaussian process 181
- G-function 41
- G-function, Meijer's 41
- Gram matrix 128
- Hahn polynomials 131
- H-function 49,86
- H-function, Fox's 49,331
- Heine series 158
- hypergeometric function 34,40,48,95,262
- incomplete beta 37
- incomplete gamma 37
- Infinite divisibility 211
- Jacobian 5,226
- Krawtchouk polynomial 131
- Kolmogorov equation 114
- Laplace transform 18,256,258
- linear filters 193
- linear models 194
- Macroscopic model 284
- Markov chain 112
- Mathai's entropy 344
- matrix-variate beta 251
- matrix-variate beta density 253
- matrix-variate gamma 237
- matrix-variate gamma density 250
- Mellin-Barnes integrals 36
- Mellin transform 21,80
- minification process 214
- Mittag-Leffler distribution 200,205
- Mittag-Leffler function 94,326
- Mittag-Leffler process 198
- moment generating function 17
- monic polynomial 132
- moving average 194
- M-transform 266
- M-transform, convolution 268
- MSRSS 148
- MTBED 148
- Mullins-Sekerka instability 295
- multiplication formula 5
- multivariable polynomial 92
- orthogonal group 244
- orthogonal matrix 242
- orthogonal polynomial 127
- parameter 13
- Pareto process 210
- Parsavel identity 54
- partition function 172
- pathway model 272
- pattern formation 281

Pochhammer symbol 1  
Poisson process 116  
poles 28  
potential coefficient 115  
product moments 17  
q-exponential 162,328  
q-Gaussian 158  
q-hypergeometric 158  
ranked-set sampling 139  
rational spectrum 197  
reaction equation 324  
reaction-diffusion equation 333  
residue 27  
R-function 68  
Riemann-Liouville operators 95  
Saigo-Maeda operators 82-92  
scaling system 292  
singular values 249  
solidification 281  
skew symmetric product 225  
spectral density 185  
spectral distribution 184  
spectral representation 189  
stationary distribution 116  
stationary processes 179  
Stiefel manifold 244  
Stirling's formula 9,278  
stochastic processes 179  
time series 179,180  
transport equation 285  
transient analysis 111  
transition probabilities 112  
variance 20  
wavelet, 53-78  
wavelet, basic 57  
wavelet, coefficients 57  
wavelet, Haar 66  
wavelet, orthogonal 56  
wavelet, series 69  
wedge product 225  
white noise 183  
Whittaker function 38,271  
Wold decomposition 191  
Yule process 117
